

Bio-compatible Dental Services

Biologic Materials

If you're prone to allergies, worried about the materials in your mouth, or afraid of metal in your mouth, we offer a simple blood test to determine what materials you're compatible with and which ones should not be used - to ensure a smooth dental experience. Results are available in about 2 days.

Are You Concerned About Mercury Fillings in Your Mouth?

We recognize the negative impact of toxic materials on your dental health and your overall health.

We do not use Mercury fillings. We use composite or porcelain fillings that are extremely strong and natural-looking. We can even test for allergies to ensure a completely comfortable and healthy experience! Let us replace your mercury fillings today. Make sure that you enjoy dental health and are not introducing toxins into your body!

Dr. Reid has biologic solutions for the results you want!
